SURVEY OF STEAMSHIPS :—

(e) If a trawler or drifter, built and measured for the Admiralty, is transferred to private owners and is being registered under Part 1 of the Merchant Shipping Act, 1894 and alterations are found to have been made affecting the tonnage, the fee is to be charged in accordance with Scale A. If no alterations have been made, a fee of \$5 only is to be charged for the visit to the ship and the issue of the necessary papers to the Registrar of Shipping at the intended port of registry.

(f) If the owners of a foreign ship apply for the renewal of a certificate of British Tonnage, the principal dimensions are to be re-tried, and, if they are found to agree with the certificate, a fee of \$20 only is to be charged for the issue of the new certificate. If the dimensions do not practically agree with the certificate of tonnage, the ship must be re-measured throughout under Rule I or II, as the case may be, and the appropriate fee charged.

(g) The fee for a copy of the Certificate of British Tonnage is \$5.

(h) When application is made for the issue or amendment of a "Suez Canal" or "Panama Canal" Special Tonnage Certificate, a fee of two-fifths of the full tonnage fee is to be charged for each certificate whether the measurement is made at the same time as the measurement for British registry or not. This fee includes re-measurement of British tonnage (except underdeck) if made at the same time. Certified copies of Suez Canal or Panama Canal certificate will be issued on payment of \$5 for each copy.

(i) If a foreign ship, originally registered as a British ship, is subsequently brought forward for registry, a fee of \$20 only is to be charged if, on comparison, the principal dimensions are found to agree with the original tonnage measurements. If, however, they do not agree and the ship has to be measured throughout, the full fee is to be charged. If the underdeck tonnage is found to agree and other items differ, then, in addition to the \$20 fee for check measurement, further fees are to be charged for these items in accordance with the foregoing.

(j) If a ship is being transferred from British to foreign registry, details of the British tonnage calculation may be supplied for the guidance of the foreign Customs Authorities on payment of a fee of \$5 per sheet subject to a minimum of \$20.

(k) The fee paid in accordance with Scale A covers any number of visits that the Surveyor may find it necessary to make before he is able to complete the measurement for tonnage and grant his certificate to enable a ship to be registered. It also covers the inspection of crew spaces and lights and sound signals, if the Surveyor is able to make these inspections at the same time as the measurement for tonnage but not otherwise. For any further visits necessary for the completion of inspection of crew spaces and lights and sound signals, additional fees are to be charged in accordance with Regulations 9 and 11 respectively.

(l) The fee for the inspection of minor alterations (e.g., of rig, engines, etc.) is \$10.

(b) This fee will cover the issue to the owner, master or agent of the ship a report of the inspection of the whole of the life-saving appliances but if a duplicate copy of the report is required an additional fee of \$3 is to be charged.

(c) For the subsequent inspection at the request of the master or owner, or, where a ship is found to have defective or deficient life-saving appliances, a fee of \$10 per visit, with a maximum of \$40, is to be charged.

(d) For a certificate of inspection of the life-saving appliances *on a foreign ship* the fee prescribed in paragraph (a) is to be charged.

(e) On application being made for the survey during construction at the boat-builders' works, and certification of lifeboats intended to form part of the life-saving appliances of either a passenger ship or a cargo ship the following fees are to be charged :—

For the survey of a lifeboat undergoing heavy repairs involving re-certification the same fee is to be charged.

These fees cover the issue to the applicant of a report of inspection of the boats only and, in the case of a passenger ship, are in addition to the fee for survey for a passenger certificate. If the boats are supplied to a cargo ship and a subsequent inspection of the whole of the life-saving appliances is made under paragraph (a) only the balance of the fees under that paragraph is to be charged.

<i>Examination of Plans of Ships, Machinery, etc. to be Constructed outside the Colony.</i>	
<p>The Government cannot allow any survey during construction to be made outside the Colony but, if desired, will undertake to examine and advise upon plans showing the structural arrangements and details of ships, marine boilers, machinery boats, etc., which are to be constructed outside the Colony and intended to comply with British requirements.</p> <p>The fee for this service will be assessed in each case according to the work involved in the examination.</p>	

Surveys outside the Colony.

19. The foregoing fees are for surveys within the limits of the Colony and include the surveyors expenses in connection with such surveys. When, on application being made, the Government decide to allow a survey to be made outside the Colony, in addition to the usual survey fee and the Surveyor's travelling expenses, a special fee of \$100 will be charged for every 24 hours or part of 24 hours during which the Surveyor is absent from the Colony. This special fee will include a subsistence allowance for the Surveyor which will be assessed and paid by the Government according to the circumstances of the case.

All fees and a deposit to cover the additional charges must be paid in advance by the applicants and an undertaking given for the payment of any balance of fees and expenses connected with the service.

Overtime Charges.

20.—(a) Whenever Surveyors are called upon to perform services out of official hours application should be made to the Chief Surveyor and an undertaking given to pay the overtime charges.

(b) Official hours are to be regarded as from 10 a.m. to 4 p.m. Saturdays 10 a.m. to 1 p.m. and overtime is charged according to the following scale:—

On week days :—

from 8 a.m. to 10 a.m. and 4 p.m. to 6 p.m.	...\$10 per hour.
from 6 a.m. to 8 a.m. and 6 p.m. to 8 p.m.	...\$20 per hour.
before 6 a.m. and after 8 p.m.\$40 per hour.
on Sundays and holidays...	...\$40 per hour.

(c) A service occupying less than an hour will be charged for as one hour according to the scale. For services exceeding one hour, a quarter fee will be charged for every quarter or part quarter of an hour, according to the scale, but for a service exceeding ten hours in any one case the charge will be limited to that for ten hours. These charges cover the services of all the Surveyors engaged in the survey, except if the services of an Engineer Surveyor in addition to those of an Emigration Officer are required before an emigrant ship can be cleared, the survey made by the Engineer Surveyor will be regarded as a separate one, and overtime charges will be made in respect of both officers.

(d) If, from unforeseen circumstances, the duty cannot be commenced at the hour stated on the form of application, or cannot be completed without interruption, the time during which the Surveyors are kept waiting is to be charged for at half the usual overtime rate subject to the limit of ten hours for the whole service.

(e) Time occupied in travelling between the shore and the ship is to be charged for at half the usual overtime rate.

(f) As the tests of illumination of ship's sides, searchlights for ship's lifeboats and visibility of navigation lights can only be made satisfactorily after dark, therefore, necessarily out of office hours, only one-half the usual overtime rate is to be charged for such tests.

During the year 1935 the visible trade of the Colony still further declined, in terms of local currency, as compared with the two preceding years, but the statistics of both imports and exports of merchandise showed an increase in 1935, in terms of sterling, as compared with the year 1934.

The combined declared values of imports and exports of merchandise totalled \$636.0 millions (£61.4 millions) in 1935, as compared with \$741.0 millions (£56.5 millions) in 1934, and \$904.0 millions (£61.3 millions) in 1933.

Imports of merchandise in 1935 totalled \$365.0 millions (£35.3 millions) as compared with \$415.9 millions (£31.7 millions) in 1934, and \$500.9 millions (£33.9 millions) as compared with 1933; whilst exports amounted to \$271.0 millions (£26.1 millions) as compared with \$325.1 millions (£24.8 millions) in 1934, and \$403.1 millions (£27.4 millions) in 1933.

In terms of local currency imports decreased by 12.2% in 1935 as compared with 1934, and 27.1% as compared with 1933; whilst exports declined by 16.6% as compared with 1934, and 32.8% as compared with 1933.

In terms of sterling values imports increased by 11.4% in 1935, as compared with 1934, and 4.1% as compared with 1933; whilst exports increased by 5.2% in 1935 as compared with 1934, and decreased by 4.7% as compared with 1933.

It is estimated that the quantum of the import trade of the Colony increased by 4.4% in 1935 as compared with 1934, and decreased by 12.3% as compared with 1933, but, of necessity, the volume of imports cannot be calculated accurately on account of the lack of a suitable unit of quantity, and the fact that many commodities imported were declared by value only.

Total movements of Treasure amounted to \$254.7 millions in 1935 as compared with \$206.6 millions in 1934; imports amounting to \$38.8 millions as compared with \$78.1 millions; and exports to \$216.0 millions as compared with \$128.5 millions. THESE QUESTIONS ARE TO BE FILLED UP IN RESPECT OF EACH PRISON IN THE COLONY.

Questions.

I.—If the Prison is on a separate system, is the separation complete? And, if not, what is the separation enforced by day and night respectively?

II.—If not on the separate system, what provision is there for the supervision of the prisoners while in association?

III.—How many cells are there; and how many associated wards?

IV.—Taking the *average* number of prisoners in Gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

V.—How are the prisoners classified?

Answers.

The Victoria Gaol is nearly on the separate system. The Branch Prison at Lai Chi Kok is not on the separate system. Prisoners work and sleep in association. The Female Prison is partly on the separate system but prisoners are mainly in association both night and day.

Victoria Gaol:—All cell doors are provided with inspection holes through which the prisoners can be seen by the officers patrolling the wards. While at labour or exercise the prisoners are at all times under the immediate supervision of Principal Warders, Warders, and Assistant Warders. At Lai Chi Kok Branch Prison, officers patrol behind grilles at night. Female Prison. Cells have inspection holes. Wardresses patrol at night during the day the prisoners are under the supervision of the Matrons and Wardresses.

Victoria Gaol:—, 633 cells on the separate system, 9 association cells, 1 condemned cell and 1 padded cell. Lai Chi Kok:— 9 association Halls—with accommodation for a total of 642 prisoners.

Victoria Gaol:—

In separate 664 cubic feet.

In association (approximate) 200 " "

Lai Chi Kok:—There are 602 cubic feet to each prisoner and each one has 5½ sq. feet of window capable of being opened.

Female Prison, 394 cubic feet to each prisoner.

In classification their sentences and nationality are taken into consideration; they are classified as follows, viz.:—

Europeans, Indians, and Chinese.

Females.

Convicted adult prisoners.

Debtors.

Misdemeanants.

On remand and awaiting trial.

All the prisoners of the above classes are separated at night, and in the yards, so far as possible.

Questions.

VI.—Is penal labour—that is, labour by tread-mill, crank, or shot-drill—in force?

VII.—If so, during what periods of imprisonments, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of tread-wheel labour, give, first, the total time on and off at the wheel, etc.; secondly, the length of spells and intervals of rest.

VIII.—What kind of labour, other than penal labour is in use?

IX.—If the prisoners are employed beyond the walls of the Gaol, state—

1. On what kind of work they are so employed?
2. How are they supervised?
3. How many escapes of prisoners, while being employed beyond the Gaol, have taken place during each of the last three years?
4. How are the profits of their labour accounted for?

X.—What was the total annual cost of the Prison during the year 1935?

XI.—What was the amount of the prisoners' earnings during 1935?

XII.—What is the number of the hours allotted for sleep? And, if sleep is in association, are the dormitories lighted? and how often are they patrolled during the night?

Debtors,	\$1,920 00

	<hr/>

	<hr/>

\$204,154.03.

The cells of the Victoria Gaol are not artificially lighted, but lights are kept burning in all passages and corridors, and the patrols on duty are provided with lamps to throw light into the cells when required.

HOSPITALS RETURN.

NOTE.—On the first occasion of filling up these forms, a plan of each floor of the hospital should be sent home. Each such plan should be the size of the Blue Book sheet. In subsequent years, if there has been no material alteration in the buildings, or addition to them, it will be sufficient to refer to the Blue Book in which the plans were sent home.

If the buildings are afterwards altered or enlarged, fresh plans should be sent home with the Blue Book of the year in which the alterations were effected.

HOSPITALS RETURN.

NOTE.—On the first occasion of filling up these forms, a plan of each floor of the hospital should be sent home. Each such plan should be the size of the Blue Book sheet. In subsequent years, if there has been no material alteration in the buildings, or addition to them, it will be sufficient to refer to the Blue Book in which the plans were sent home.

If the buildings are afterwards altered or enlarged, fresh plans should be sent home with the Blue Book of the year in which the alterations were effected.

The Royal Observatory is situated on a hillock, 100 feet high, near the southern extremity of the Kowloon Peninsula, about 1000 yards from the harbour to the South, 500 yards from the east side of the peninsula and 900 yards from the west side. To the North a range of hills from 200 to 400 feet high stretches across the peninsula a mile from the Observatory. From 3 to 20 miles farther North the ground is hilly over the greater part of the peninsula with peaks from 2000 to 3000 feet high. Five miles to the eastward of the Observatory, where another small peninsula projects southward, is a range of hills from 700 to 1000 feet high. To the westward of the Observatory the hills on Lantau Island, 10 miles distant, rise to 3000 feet.
